DETAILED ACTION

This is a reply to the Applicant's amendment submitted on 06/28/2004. According to this amendment, claims 1-30 are currently presented in the instant application.

Allowable Subject Matter

1. Claims 1-30 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art fails to disclose or fairly suggest:

- A data output circuit including a first voltage compensation unit coupled to the output of a first inversion unit that compensates for the voltage level of the first inverted data signal to obtain a first driving signal when a first power supply voltage of an output voltage level is different from a second power supply voltage of the operating voltage level by at least a predetermined voltage level, as called for in claims 1 and 13; or
- A data output circuit including a second control unit generating a third control signal for controlling the operation of the second voltage compensation unit when the levels of the first and second power supply voltages are the same and generating a fourth control signal for controlling the operation of the second inversion unit when the levels of the first and second power supply voltages are different by at least a predetermined voltage level, as called for in claim 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Remarks

Regarding the referencing of an IDS submitted on 01/06/2003 in the previous office action, this was an inadvertent mistake since no IDS was submitted by the Applicant that date.
